In Helen's Own Words...

"I fell in love with Rin Tin Tin as a youngster. I wanted a dog that would be willing to do everything that I enjoyed doing. The most distinctive characteristic of my breed is their exceptional character and ability to adapt to any and all situations. Many kennels in the United States and in Germany have contributed greatly to the development of our breed. Depending upon the parents and the amount of training they have received and the quality of the bloodlines young, fully guaranteed, showable dogs can range in price from \$2,000 thru \$5,000."

Changes:

"I would like to see the coming together of all of the different clubs to support the German Shepherd Dog in all venues."

Common Judging Mistakes:

"Placing people rather than dogs. Judges who do not excuse poor temperaments or those who permit double handling to conceal this fault."

Education:

I hope that everyone who cares about our breed reads as much as they can to educate themselves. I wish that they would visit the GSDCA website www.gsdca.org as excellent articles are presented in the education section.

How I Would Like to Be Remembered:

"As an honest judge and a dedicated breeder of sound intelligent animals."

**The German Shepherd Dog is the "Total Dog"
limited only by our time and ability to train them.**
